

Ultra Short Throw Projector Cabinet with Integrated Center Channel and Floor Raising Screen.

This innovative cabinet is designed to accommodate Ultra Short Throw (UST) projectors, center channel speakers, and floor-rising screens, creating a seamless 120" viewing experience for rooms with 8-foot ceilings and above. Here's what makes this cabinet stand out.

KEY FEATURES:

1. Universal Compatibility: Accommodates virtually any UST projector, center channel speaker, and 120" floor rising screen.

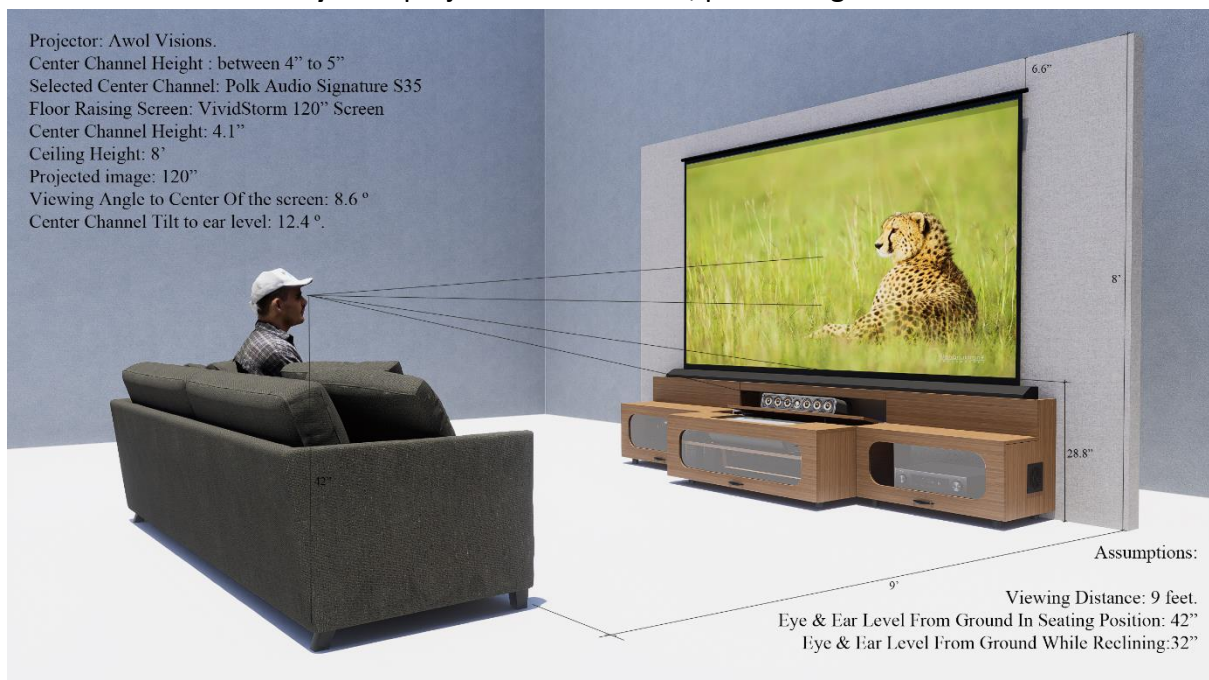

2. Advanced Cooling System:

- Silent fans in the AVR section efficiently dissipate heat from the receiver.
- Dedicated fan in the left section for cooling other electronic devices.

3. Adjustable Platforms:

- Variable height platform for the projector ensures compatibility with different models.
- Center channel speaker sits on an adjustable height and tilted platform for optimal sound direction.

4. Child and Pet-Friendly: UST projector is concealed, preventing accidental disturbance.

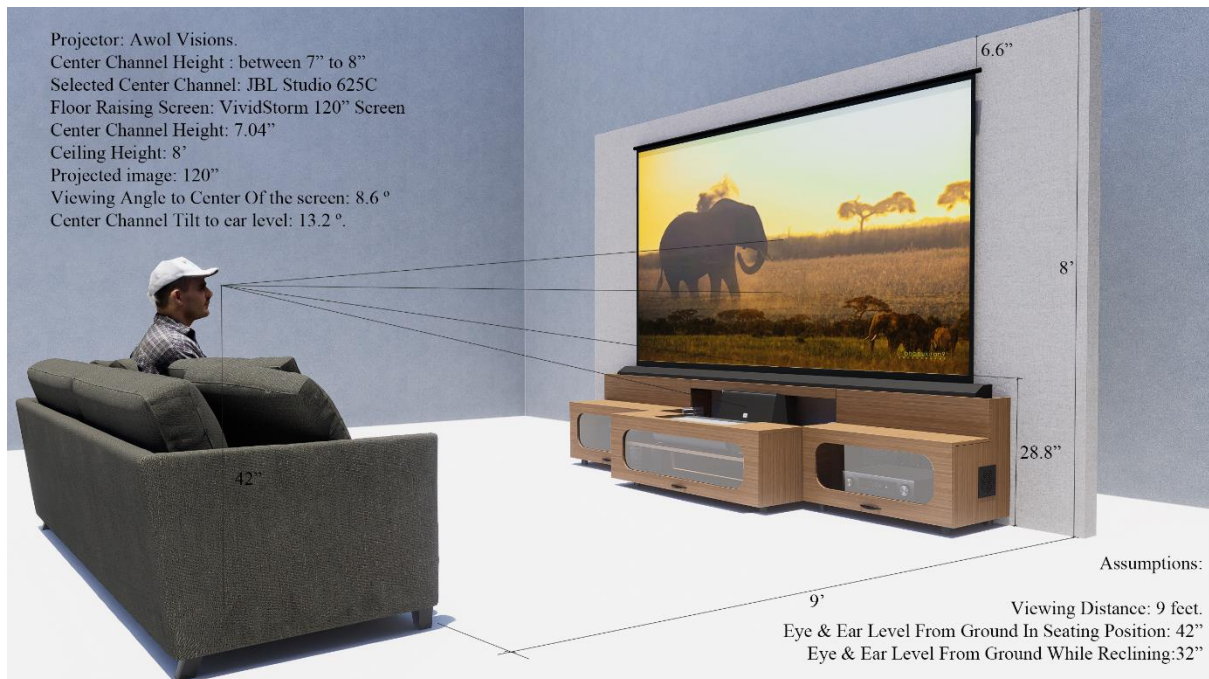

5. Customizable Height: Adjustable legs allow for a height range of 2 to 2.5 inches.

6. IR-Compatible Doors: Allows operation of all devices using remote controls.

7. Flexible Center Channel Accommodation: Variable depth option provides an additional 4 inches for deeper speakers.

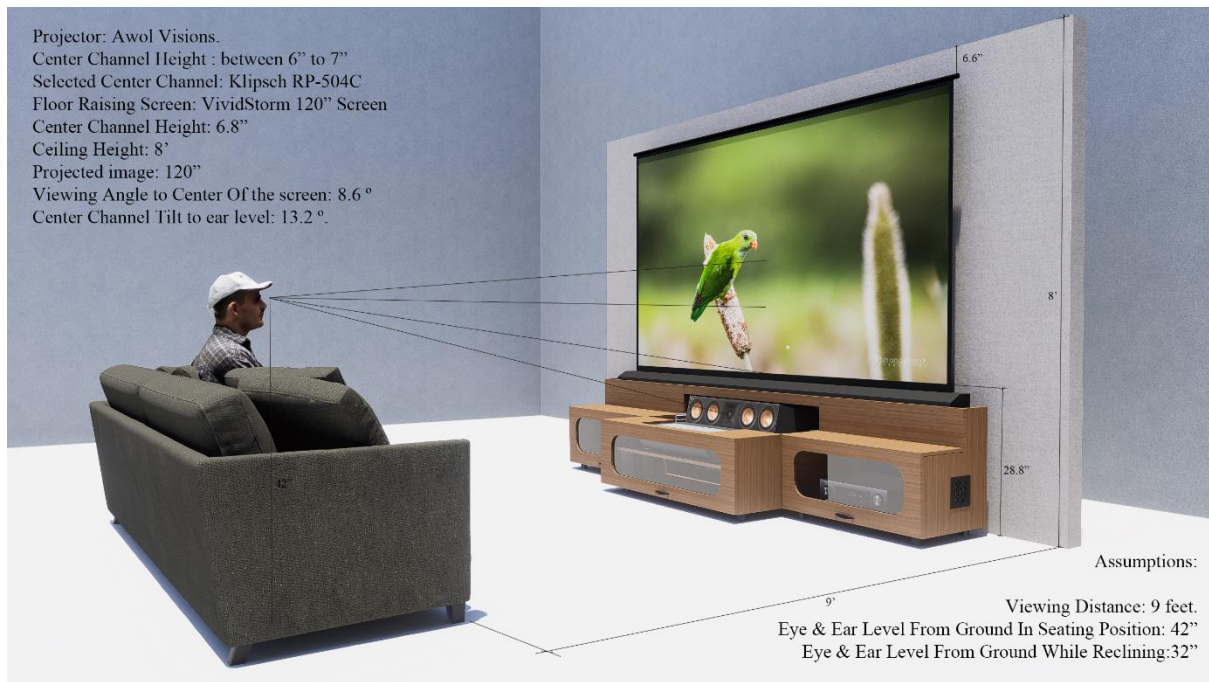

8. Durable Construction: Built with plywood and cabinet liner for strength and stability.

9. Efficient Heat Management: Open back design in the UST projector section for effective heat dissipation.

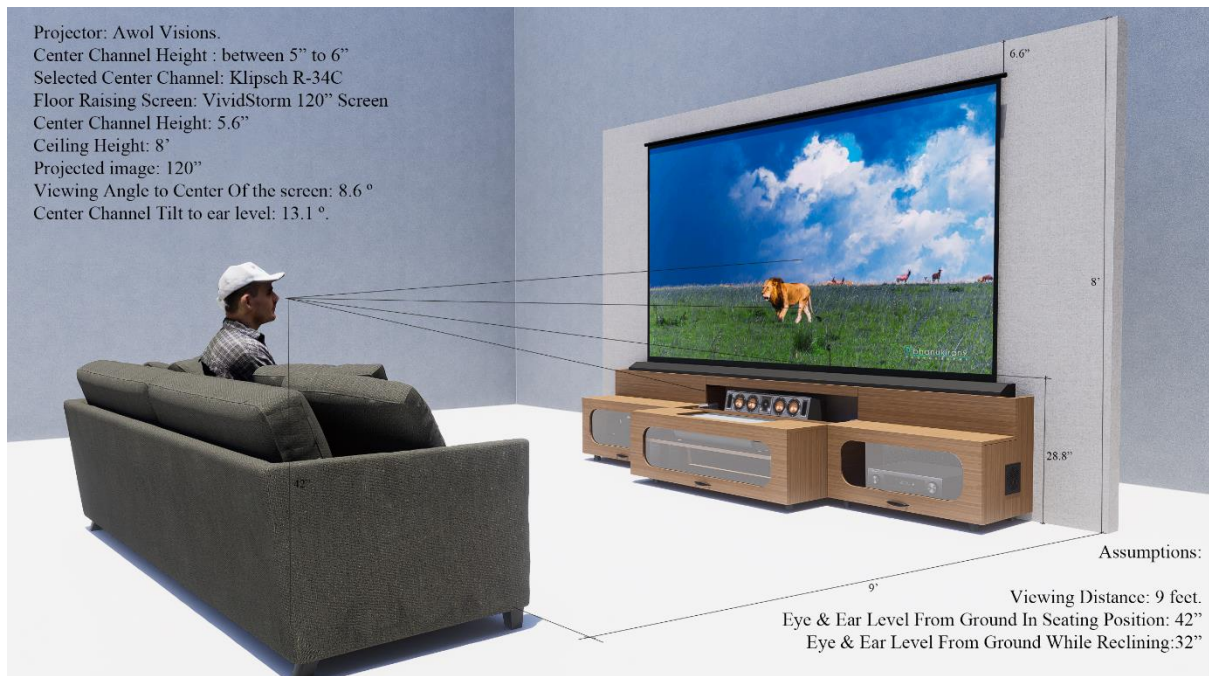

Design and Construction

The cabinet is crafted from high-quality plywood with a cabinet liner, ensuring durability and a polished appearance. Its thoughtful design incorporates adjustable components to accommodate a wide range of equipment sizes and configurations.

Ventilation and Cooling

Silent fans strategically placed in the AVR and left sections provide efficient cooling for electronic components. The open-back design of the UST projector section further enhances heat dissipation, ensuring optimal performance and longevity of your equipment.

Customization and Flexibility

With adjustable platforms for both the projector and center channel speaker, this cabinet

offers unparalleled flexibility. The variable height and tilt options for the center channel ensure ideal sound projection, while the adjustable legs allow for perfect leveling on any surface.

Safety and Convenience

The concealed design of the UST projector compartment adds an extra layer of safety, making it ideal for households with children or pets. IR-compatible doors enable seamless operation of all devices without the need to open the cabinet.

This UST projector cabinet represents the perfect blend of form and function, offering a comprehensive solution for home theater enthusiasts looking to maximize their viewing experience while maintaining a sleek and organized setup.
